

A300 SERIES

DESCRIPTION

Post top arms shall be made of cast aluminum with a cast aluminum scroll welded to a round central column. Wall brackets shall be made of cast aluminum with a cast aluminum scroll all welded to the cast aluminum wall plate.

MATERIALS

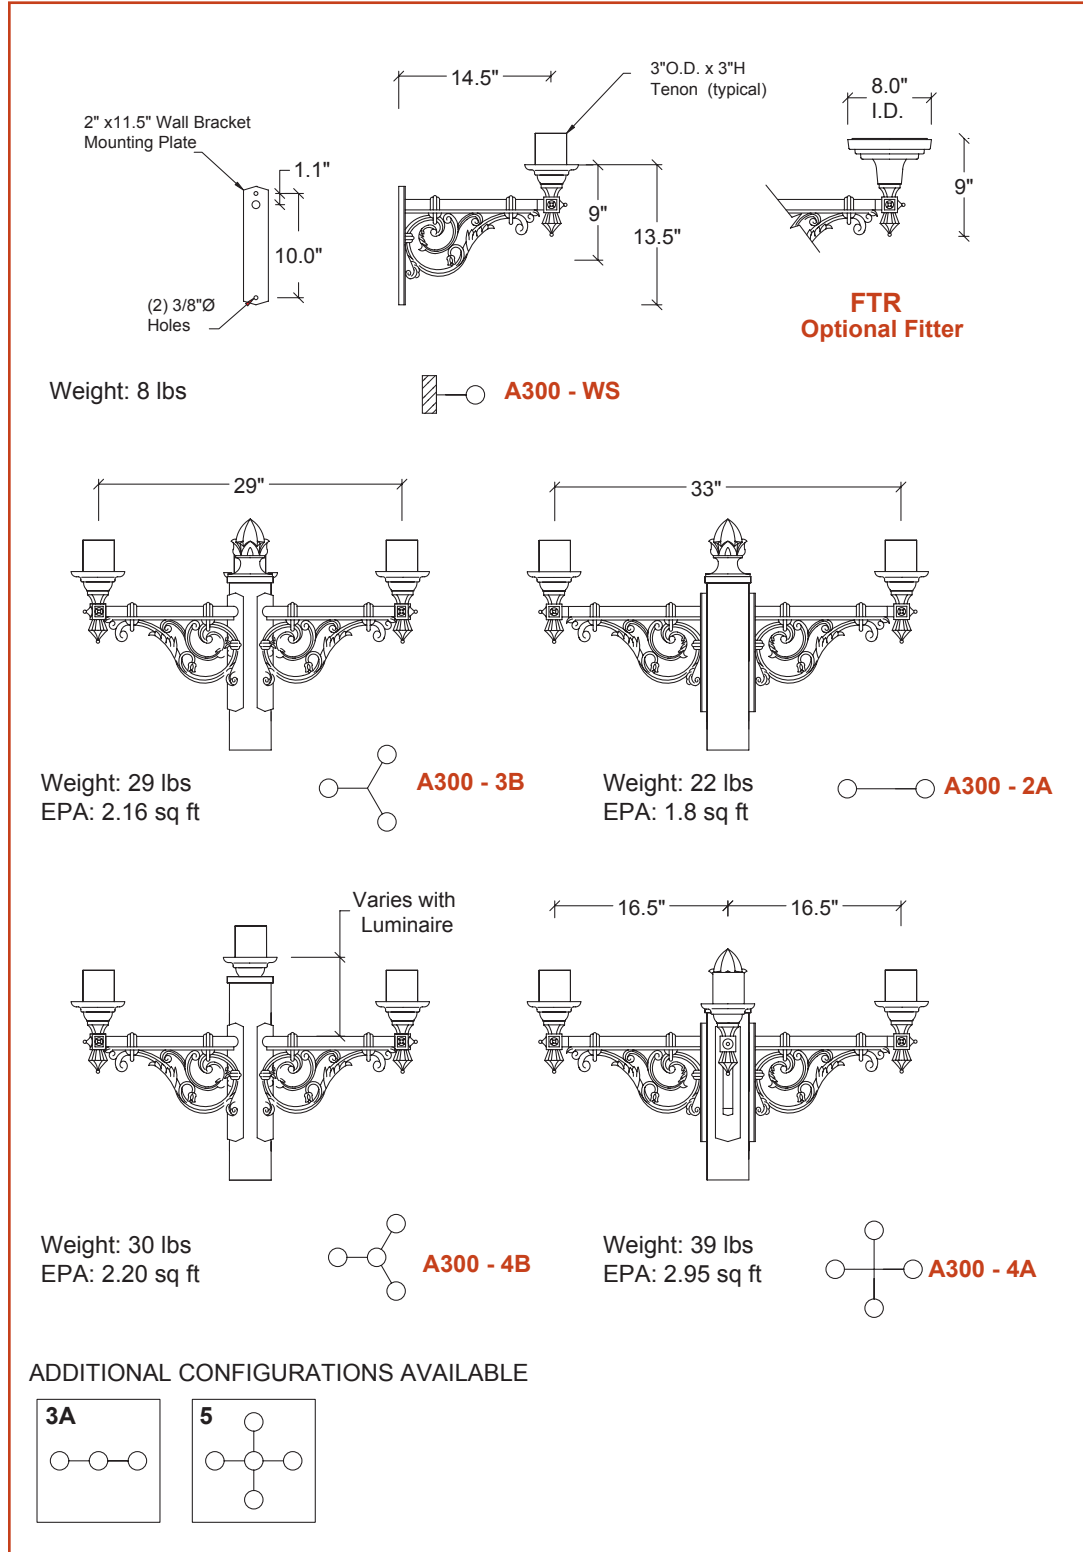

The arm and scroll shall be cast as one piece. The central column shall be made of extruded non-fluted aluminum. All hardware shall be tamper resistant, stainless steel.

CONFIGURATION

A variety of configurations is available, some of which are illustrated below. Those not illustrated are noted in the bottom left-hand corner. Non-standard configurations may be feasible, please consult factory for details.

INSTALLATION

Post top arms shall slip-fit 10" over a 3-1/2" (89mm) round pole tenon. Arms shall be equipped with 3" (76mm) diameter tenons for fixture mounting. *Post top* arms are not pre-wired and shall be wired by the contractor. *Wall brackets* shall be pre-wired, with a 12" slack for ease of wiring to source on the wall side and for wiring with wire nuts on the fixture side. Mounting hardware for wall brackets is not included.
