

A307 SERIES

DESCRIPTION

Post top arms shall be made of aluminum with an ornamental cast aluminum scroll welded to a round central column. Wall brackets shall be made of aluminum rectangle with a cast aluminum scroll all welded to the cast aluminum wall plate.

MATERIALS

The rectangular 3"x1-1/2"x 1/8" thick arm shall be welded to the ornamental cast scroll. The central 4"OD column shall be made of extruded non-fluted aluminum. All hardware shall be tamper resistant, stainless steel.

CONFIGURATION

A variety of configurations is available, some of which are illustrated below. Those not illustrated are noted in the bottom left-hand corner. Non-standard configurations may be feasible, please consult factory for details.

INSTALLATION

Post top arms shall be equipped with a 12"L x 3-1/2" OD round pole tenon. Arms shall be equipped with 3" (76mm) diameter tenons for fixture mounting. *Post top* arms are not pre-wired and shall be wired by the contractor. *Wall brackets* shall be pre-wired, with a 12" slack for ease of wiring to source on the wall side and for wiring with wire nuts on the fixture side. Mounting hardware for wall brackets is not included.
