

A340 SERIES

DESCRIPTION

The arm shall be HCI A340-____ (specify configuration) arm, consisting of a curved arm welded onto an adaptor and a 3-1/2" OD central column designed to accept a pole tenon.

MATERIALS

The arm shall be made of 2-3/8" aluminum tubing, 0.154" wall thickness. The adaptor shall be made of cast aluminum. The column shall be made of extruded non-fluted aluminum. All hardware shall be tamper resistant, stainless steel.

CONFIGURATION

A variety of configurations is available, some of which are illustrated below. Those not illustrated are noted in the bottom left-hand corner. Non-standard configurations may be feasible, please consult factory for details.

INSTALLATION

Post top arms shall be equipped with a 10"L x 4" OD round pole tenon. Arms shall have a 2" ID opening for fixture mounting. Arms are not pre-wired and shall be wired by the contractor.

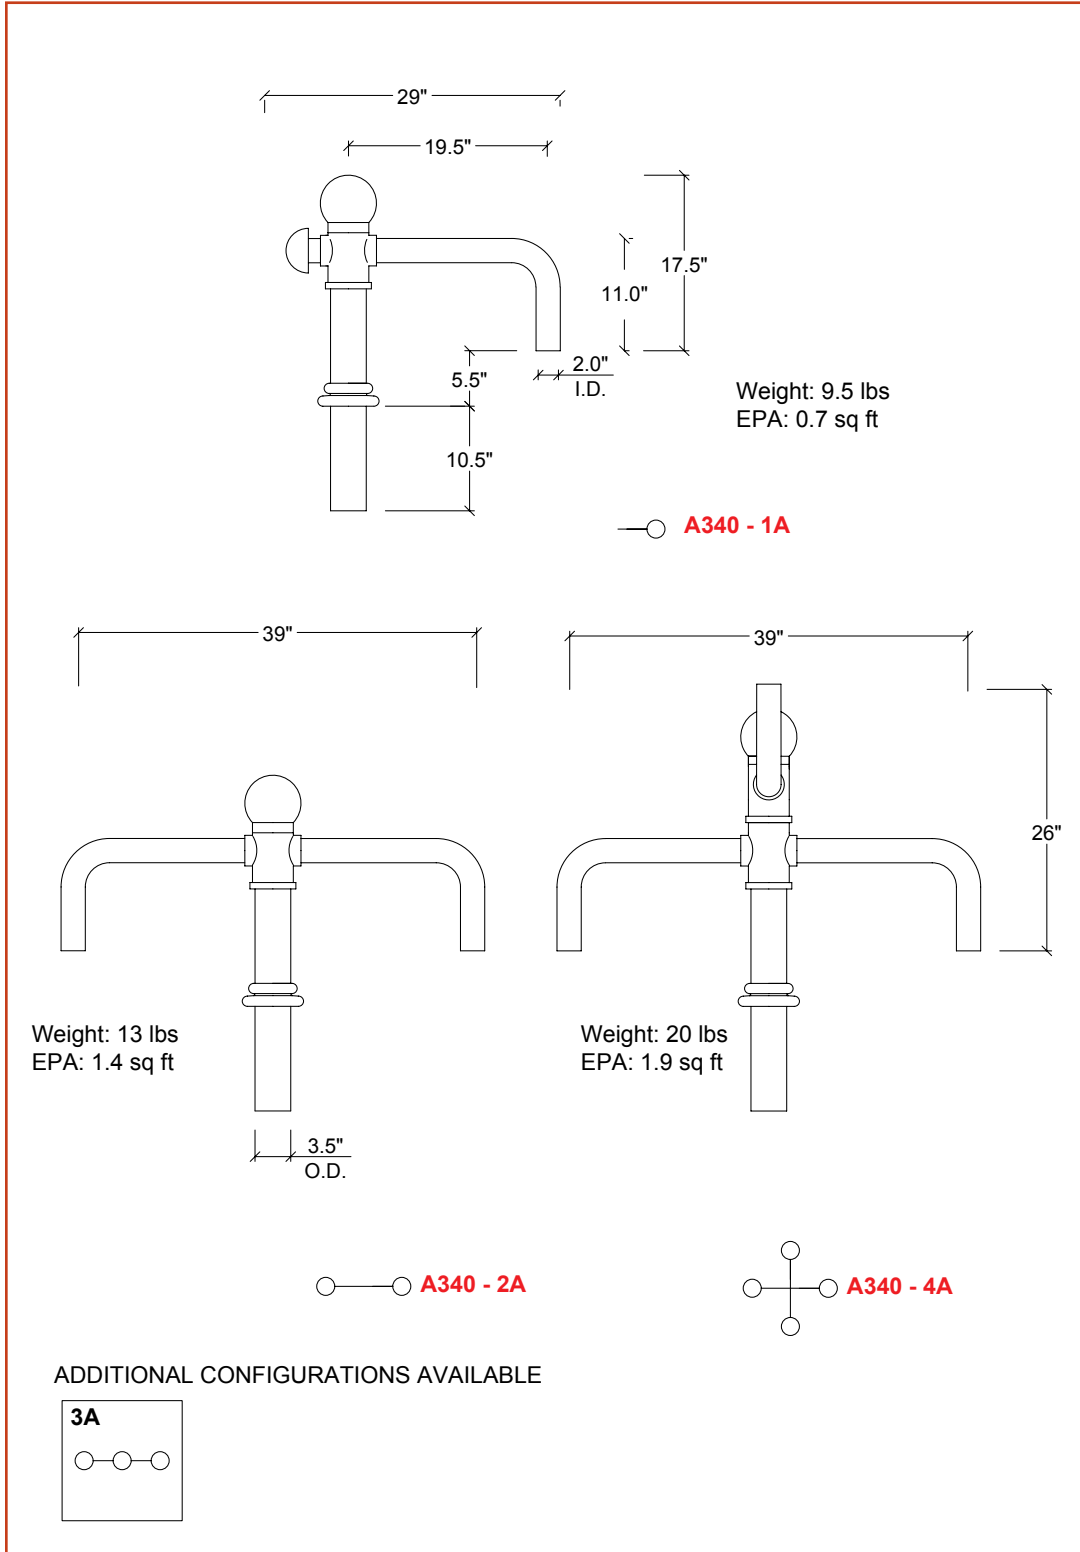

FINISH

All applicable parts shall receive a standard electrostatically applied thermoset polyester powder coat smooth semi gloss finish with a four part corrosion inhibiting process.

COLORS

The five standard RAL colors are listed below. Simply check off the color applicable to your project. Custom colors are available for an additional charge. Please supply a 2" x 2" paint chip.

- Black** RAL 9011
- Green** RAL 6005
- Bronze** RAL 8019
- Grey** RAL 7012
- White** RAL 9016
