

## B804 Lighted Bollard

### Description

The body of the bollard is made from heavy duty cast aluminum or cast iron to withstand harsh weather. The lighted bollard is equipped with an aluminum fixture head on top with a choice of light sources and optical systems, and is secured with four (4) stainless steel head socket screws.

### Specification

#### Housing

Made from cast aluminum to withstand harsh weather.

#### Hardware

All exposed hardware is made of durable stainless steel, with industrial strength seals.

#### Interior Design & Optical

Energy efficient LED driver is mounted on a removable plate, with quick disconnect wiring to allow easy driver maintenance (Applicable for LED strip)

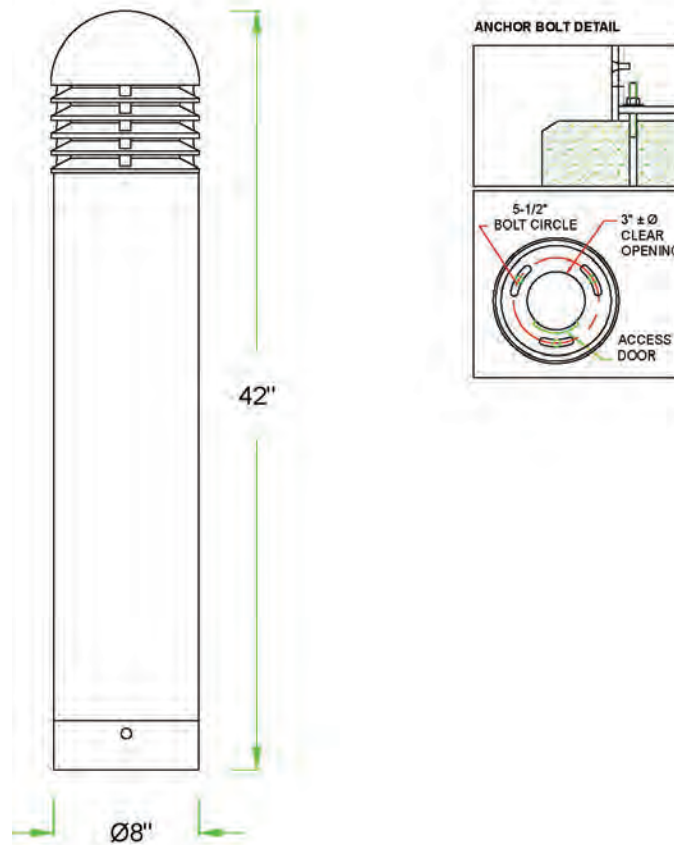

#### Exterior Design & Finish

Bollard is suitable for wet locations.

Finish is electrostatically applied with thermoset polyester powder-coat.
