

F137 LED Series Post Top

Description

- The F137 Series luminaire shall consist of an injection-molded UV stabilized tubular diffuser, a spun aluminum hood assembly, an internal optical system and a slip fitter (capital).
- The hinged hood shall rest on a cast aluminum ring welded to extruded aluminum struts. The diffuser shall be held in place with positive pressure applied by the hood assembly. As an option, lower third of the diffuser can be frosted. The fitter shall be made of cast aluminum and shall house the LED assembly. The LED shall feature quick disconnect plugs for easy maintenance.

Specification

Housing

Made from heavy duty cast aluminum to withstand harsh weather.

Hardware

All exposed hardware is made of durable stainless steel, with industrial strength seals.

Interior Design & Optical

Energy efficient LED driver is mounted on a removable plate, with quick disconnect wiring to allow easy driver maintenance.

L70 at 50,000 hours with CRI ≥ 70 .

Exterior Design & Finish

Luminaire is designed to fit post top mounting or pendant mounting with our ornamental arms and poles, and is suitable for wet locations.

Finish is electrostatically applied with thermoset polyester powder-coat.
