SPECIFY HEIGHT

Description

The pole shall consist of a clam-shell base cover and a shaft. The base cover shall be made from a two-piece casting secured to the pole shaft with four s/s tamper resistant screws. The base shall be square in shape. The castings shall be of uniform wall thickness with no warping or mold shifting and shall be formed true to the original pattern with complete detail. The 5" round shaft shall be made of extruded aluminum and shall be circumferentially welded to a cast aluminum base plate.

Mounting

The pole shall be supplied with a sturdy steel template and with three hot dipped galvanized 3/4" x 24" long "L" type anchor bolts with two nuts and two washers each. These will install on 11-1/2" bolt circle with anchor bolts extending 3" above the ground level (HCI, Ltd. neither designs nor recommends concrete footing size). A 3"x5" maintenance opening is located at 12" to center from the bottom of the pole.

Dimensions

The pole shall be "XX" (specify height in in feet) in height. The base shall be 15" square and 30" high.
